BRITISH EDUCATIONAL
SUPPLIERS ASSOCIATION

Kit for Kids is an official member of the British Education Suppliers Association (BESA). BESA is a trade association who work on behalf of their members to support UK-based companies that supply goods and services to the education sector. This includes lobbying Government and decision-makers on policy issues, providing information, training and advice and provide marketing opportunities and savings for BESA members in the UK and internationally.

Our Partnership with you...

How can we add to our partnership?

It's not about selling product; it's about delivering excellence to the end user. Excellence in this respect means the proposition of value for money, choice and great service.

We play our part by communicating this advocacy of excellence through marketing support. This increases the value proposition, increases the margin for you, our customer, and allows the purchaser to make an informed decision which is not based on price alone.

★ Trade Support Area

Our obsession with excellence extends to the way we communicate with you, the customer. We have made this process effective and simple.

★ Catalogue Marketing Support

Our design team will work with you to design catalogue pages, spread layouts and branding. This maximises catalogue space and enhances your customer proposition.

★ British Design

All products are designed in-house by our talented team of designers.

★ Product Development

Working in partnership to develop and bring your product ideas to life.

Contact Us

Our experienced customer service and sales teams can be contacted from **Monday to Friday between 8:30am and 5:00pm GMT** to answer your enquiries.

Qualitative Research & Project Development

We have spent a lot of time over the last few years conducting in-depth qualitative research with a number of teachers, schools and nurseries with the sole aim to ensure our products are fit for purpose.

We have employed the use of the Quality Function Deployment technique (QFD) to give a structured approach to defining customer needs and requirements. The process ensures our product development plan focuses on new and updated products that specifically meet those needs identified through the research stage.

☆ Early Years Foundation Stage

This comprehensive research was conducted alongside a review of the current Early Years Foundation Stage (EYFS).

This has enabled us to map out and categorise a number of our products to make it easier for teaching staff to see where our products support the key areas of learning and development.

Our research has resulted in the creation of a Kit for Kids Community, working in partnership with a number of schools and nurseries who now benefit from access to new and exciting products in return for their honest feedback and ideas.

All of this helps us to support you, our customers, to ensure all of our products will not only be of the highest quality but also meet the needs and requirements of the end user.

Carpets

Our extensive range of carpets is designed to suit all classroom sizes and learning environments, from decorative and shaped carpets to themed placement carpets perfect for group activities and reading.

Carpets

Our carpets are designed to be of the highest quality, perfect for a busy classroom. They support the needs of teaching staff whilst providing opportunities for children to learn, be creative and enjoy the process along the way.

Our carpet range can be divided into a number of subcategories, all of which can be used for multiple activities to provide a valuable cross functional resource in any nursery or classroom.

All Kit for Kids carpets have anti-slip backing.

★ Placement Carpets

Our placement carpets come in a range of designs and sizes to suit any classroom size or space. These carpets are suitable for both group or quiet reading activities.

★ Themed Carpets

Our themed carpets are ideal for supporting various key areas of learning and development such as Literacy, Mathematics or Understanding the World. Many of our carpets can also be used to explore different cultures, languages or for managing emotions and behaviour.

Our literacy carpets are linked to the National Curriculum and use Sassoon Infant font to make letters easily identifiable.

★ Cleaning & Care Guide

Carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles. If in doubt, always seek professional advice.

Avoid contact with sharp or abrasive objects and cleaning machinery, i.e. flooring buffers and vacuum cleaners with beater bars. We suggest moving carpets when buffing floors to avoid contact.

When vacuuming, adjust the height of the beater bar to lightly agitate the carpet pile but not cause the motor of the vacuum to slow.

Avoid vacuuming over binding and edging.

★ Carpet Piles

All of our indoor carpets have an anti-slip Dura-Latex™ backing making them suitable for any indoor surface.

There are three grades of pile in the carpet range:

- Light & Durable Tuf-Loop™
- Thick & Soft Tuf-Pile™
- Super Soft Tuf-Pile™

LIGHT & DURABLE
TUF-LOOP™

Ideal for walkways & small play

THICK & SOFT
TUF-PILE™

Ideal for classrooms & reading areas

SUPER SOFT
TUF-PILE™

Ideal for libraries & quiet zones

Outdoor Play

.....
A range of outdoor mats and cushions to support learning and play outside the classroom.

Outdoor Play

This range consists of outdoor mats and multi-use cushions.

★ Mats

All outdoor mats have Outdoor Tuf-Loop™ pile which is lightweight, making the mats easy to carry and move. They include either Outdoor Rhombus™ backing, which is hardwearing and waterproof for outdoor use only, or specialist indoor/outdoor backing which is both waterproof and non-slip.

Our Minibeasts outdoor mat is great for teaching children about the natural world around them, whilst the Garden mat creates opportunities for role play and encourages children to be imaginative and build their self confidence.

We also have outdoor mats which support the development of basic numeracy and literacy skills, and our Hopscotch outdoor mat helps children to build relationships in the playground whilst promoting physical development.

★ Outdoor Cushions & Trolleys

Our outdoor cushions are supplied with storage trolleys with lockable castors, making them easy to move from the classroom to outdoors. The cushions are washable and perfect for outdoor group activities or quiet reading sessions.

★ Cleaning & Care Guide

Outdoor mats should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

When not in use, always keep the mat rolled up and do not fold. Always ensure that the mat is dry before doing so. The care label must not be removed and products must be used on outdoor surfaces only, unless clearly stated that they are suitable for indoor surfaces.

The outdoor cushions can be washed at 30°C.

NB. Product warranty will become invalid if the carpets are not used correctly.

Soft Furniture

A quality range of soft seating and floor cushions, both in plain colours and distinctive themed prints to suit a variety of learning environments.

Soft Furniture

Soft Furniture

Buyer's Guide

We offer a number of distinctive products in our soft furniture range, including themed printed soft seating and plush fabric soft play cushions.

★ Soft Seating

Kit for Kids offer a wide range of innovative seating options, in both plain colours and printed themes.

Our popular modular ranges allow for items to be bought individually and put together to suit the space available, either in a classroom or library.

Our printed products are of digital high definition quality using the latest technology to enhance the graphic detail and colours.

All of our soft seating is ergonomically designed at ideal popliteal heights to ensure a child's comfort. All products also include a wear resistant non-slip base and our vinyl is backed with a reinforced mesh to resist tearing or fraying after heavy daily use.

All of our soft furniture complies with the latest European standards to ensure a safe and long lasting product, best suited for busy childcare environments. This includes non-removable covers to make sure children cannot gain access to the foam within.

★ Floor Cushions

We offer an extensive range of vinyl and polyester floor cushions. Our plain coloured story cushions and giant sagbags are great for reading activities.

We also provide specially designed floor cushions that tackle key topics such as managing feelings and behaviour i.e our Emotions™ range, and understanding the world through our multi-cultural Children of the World™ range. These are excellent cross-functional products that can be used for smaller group activities and reading as well as for leading interactive group discussions around these topics.

★ Cleaning & Care Guide

Both polyester and vinyl soft furnishings can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

Many of our plush soft play items have washable covers. Always follow the washing instructions given on the care label of the product. Plush products can be spot cleaned with a damp cloth but as with vinyl, never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces.

★ Plush

Plush soft play items are great for introducing children to different tactile fabrics as well as providing a soft and comfortable place to rest in the nursery environment.

Our snuggle mats are all handmade with detailed appliques and embroidery to add interest to the designs.

The fabrics are designed to be hardwearing and fade resistant, and can be washed at 30°C to maintain levels of hygiene.

It is essential that all products with removable covers have sealed inner covers so that the foam or fibre core is not accessible to the child. Safety is of the utmost importance to us so our products not only have safety specified interliners but they also have the zip puller removed so that only an adult can open the cover for washing.

Emotions

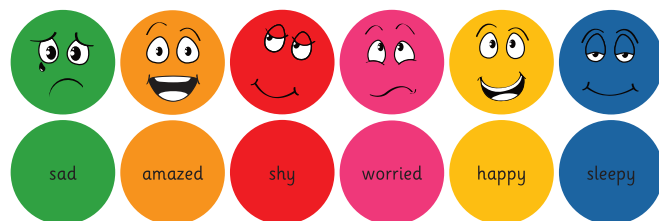

Each cushion is printed on both sides; one with a facial expression, the other with key discussion words for group activity.

Soft Play

A range of versatile soft play shapes, activity mats and sensory items that are ideal for imaginative play and supporting physical development.

Soft Play

Our range of soft play products is great for promoting imaginative and active play in the childcare environment.

From small activity mats and sensory cubes to large soft play kits, our range can transform any early years environment.

★ Play Mats

All of our activity and tumble mats fold for convenient storage and the strong welded seams allow for these mats to be used both indoors and outdoors.

The large tumble mat is ideal for use under play equipment or for elementary gymnastics.

★ Sensory

Our range of sensory items are designed to aid the development of visual and motor skills.

The Pentagonal Mirror has a soft mirror to promote self-awareness and can be transformed into a balance course to support physical development.

The Mirror Cube also has soft mirrors to promote self-awareness but these are set within a variety of geometric shapes providing an opportunity for early shape recognition.

★ Activity Kits

Our versatile activity kits come in a variety of soft play shapes and assortments. They are ideal for physical learning activities including construction, moving and handling, role play, and allowing children to create their own paths and obstacle courses.

All activity kits come with a starter guide that gives details and ideas on different constructions that can be achieved with each set of shapes. They also come with a handy holdall to make them portable, perfect if they are to be a shared resource, and easy to store.

We use high quality vinyls to ensure these products last within an active and busy nursery environment.

★ Cleaning & Care Guide

Our soft play products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.

Sensory

Aiding dexterity, fine motor and visual development skills.

☆ Pentagonal Mirror

- Soft play mirrored pentagon which transforms into a balance course.
- Promotes self awareness and physical development.
- Joins using Velcro® to make a mirrored ring (use 2 Pentagonal Mirrors).
- Soft mirrors for complete safety.

Tables & Chairs

.....
A functional and quality range of wooden tables and chairs, designed for the rigours of daily use in a busy classroom environment.

Tables & Chairs

Kit for Kids tables and chairs offer exceptional build quality ensuring our products are both strong and stable.

Safety is of the utmost importance in the learning environment which is why our furniture is tested for endurance and meet BSEN1729-2:2012 Furniture – Chairs and Tables for Educational Institutions.

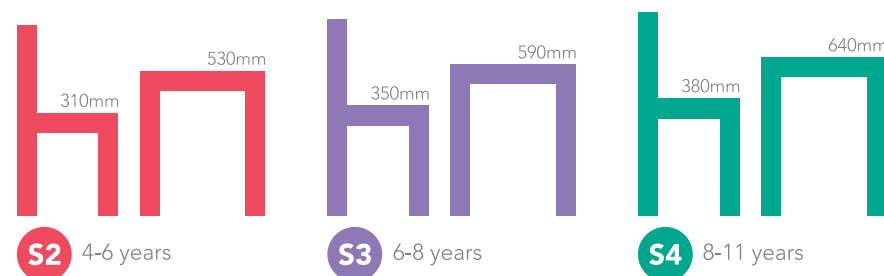

European Standards For Tables & Chairs

EN1729 Part 1 Functional Dimensions

All Kit for Kids tables and chairs are manufactured to the highest standards. Ergonomic design depends on having the right furniture height for the child at the right age. We have adopted the European standard EN1729 Part 1 Functional Dimensions.

Our Tuf Class™ and Tuf Top™ wooden tables and chairs are made to the size marks S2 to S4 for correct posture and meet the recommended popliteal chair and table heights.

★ Tables

We use high quality laminates and lacquered finishing paints, mounted on a dense MDF core to ensure a quality finish and making our table tops resistant to scratching and colour fading. All natural hardwood and painted plywood is varnish protected to aid longevity.

The wooden leg tables are reinforced with a supportive under-frame which is both glued and screwed to the table top. They are counterbalanced meaning they have a thick laminate base panel which adds strength and prevents warping over time.

Our height adjustable Tuf Top™ tables have Tri-lock™ reinforced legs to give additional strength and self levelling feet, ideal for uneven floors around the school.

★ Chairs

Our chairs are delivered fully assembled. All joints are reinforced by screws, wooden dowels and glue to ensure their long-term strength.

Our chairs have a crossbar between the front legs to reinforce the chair frame.

We also pride ourselves on ensuring that all products manufactured from hardwood are selected from sustainable forests.

TROLLEYS

TUF
TROLLEYS

The Kit for Kids range of trolleys combines large capacity and mobility with safety and stability.

All trolleys meet the BS5873 testing standard for strength and stability. As these products are both heavy and bulky, our furniture is delivered within a double carton which is foam lined and drop tested to make sure your products arrive in perfect condition.

★ Tuf™ & Tuf 2™ Trolleys

At Kit for Kids we offer wooden and metal trolley options, both of which are sturdy and functional. Our trolleys are hand finished with heavy duty castors for high weight tolerances, two of which are lockable for static use, and fixing points are reinforced for longevity.

Our wooden trolleys use contoured MDF beech laminate panels with sealed matching edges for durability and low maintenance, with reinforced scratch resistant frames to give superior strength.

Shelves are individually reinforced to take excessive loading depending on the trolley's application and can support weights ranging from 100kg to 160kg.

★ Donut™ Trolleys

Innovatively designed to fit either 12 or 24 Donut™ cushions or 32 Rainbow™ cushions, these sustainable hardwood trolleys allow easy and practical storage when not in use.

These are great for sharing resources between classrooms.

Rest & Changing

.....

From basic changing and sleep mats to our high quality professional Snoozemat®, Kit for Kids has everything you need for a busy childcare environment.

Rest & Changing

Our Rest & Changing range includes high quality changing and sleep products. All are made from stain resistant and wipe clean vinyls, as we understand the importance of hygiene in a busy childcare environment.

Quiet time is as important for physical development as play time during the early years, and our Snoozeland® products are perfectly suited to give children a comfortable place to rest.

★ Cleaning & Care Guide

Vinyl products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.
